Sustainable Design Solutions

## Cork fabrics

Made of the best quality cork slices removed from the bark of the cork oak tree and transformed into very thin sheets that are placed on a chosen backing support

- 100% Organic
- Eco-friendly
- Renewable
- Biodegradable
- Zero Waste
- Water / dust / dirt repellant
- Fire Resistant
- Durable
- Insulating
- Smooth soft texture

### SUSTAINABLE LIFE CYCLE

All the elements are from natural vegetable sustainable sources, which makes this a product with a sustainable life cycle.

Works well with:

Standard sewing machine / Glue / Heat embossing / Embroidery / Digital Printing

Possible Backings :

Twill / Hemp / Oeko\_Tex Cotton / Denim (Black,Blue,Ecru) / Wallpaper

- all in different weight & thickness (0.4 - 2.2 mm), could be Double / Single layered

## Protective Finishing layer

- Water resistant
- Resistance to scratches, stain and dirt
- Abrasion resistance
  - Abrasion Resistance of Textile Fabrics Test (ASTM 3884-92; Taber test: 500g, CS17) > 8000 Cycles

## Washing Recommendations

\*Wash with soap and a wet cloth (Or Wool Machine program)

\*\*Cork fabric repels dust, grease and dirt and resists to stains
